CHAINSAW SPARE PARTS

Chainsaw's Chain Sharpening **2.2**

Affilatura catena motosega

AFFILATRICE ELETTRICA PER CATENE DI MOTOSEGHE "NICK"

AFFÛTEUSE ELECTRIQUE POUR CHAÎNE DE TRONÇONNEUSE «NICK»
 ELECTRIC GRINDER FOR SAW CHAIN "NICK" ELEKTRISCHES SÄGEKETTENSCHÄRFGERÄT „NICK“
 ELEKTRISCHES SÄGEKETTENSCHÄRFGERÄT „NICK“
 AFILADORA ELECTRICA PARA CADENA DE MOTOSIERRA "NICK"

Note: NICK è preciso, potente, FACILE DA USARE e sicuro. Per questo è l'affilatrice ideale tanto per i professionisti che per gli hobbisti che vogliono affilare la catena RAPIDAMENTE e RISPARMIANDO sui costi.

NICK THE GRINDER impiega un motore a magneti permanente in grado di erogare la massima potenza anche quando l'attrito tra mola e dente della catena è maggiore. Capita spesso di dover affilare catene rovinata nelle quantità elevate di materiale di alcuni denti. Anche in questi casi con NICK è possibile riportare alla corretta affilatura ogni tipo di catena in poco tempo e con facilità.

NICK è stato progettato per garantire la massima sicurezza all'operatore: il carter copricatena è di grandi dimensioni, l'interruttore è collocato in una zona protetta, in caso di mancanza di corrente è necessario far ripartire il motore volontariamente per riprendere l'affilatura e l'uscita del cavo elettrico è lontana dalla zona di lavoro.

Caratteristiche tecniche:

Potenza: 85W
 Mola in dotazione: 4,5 (catena ,404" - 3/8")
 Mola opzionale: 3,0 (catena ,325" - 1/4")

Conforme a tutte le direttive CE e Rohs

Notes: NICK is precise, powerful, safe and easy to use. It is the perfect electric grinder for both professional and hobby. It works fast, saving time and money.

NICK THE GRINDER uses a permanent magnet motor able to supply the maximum power even when the friction between the grinding wheels and the chain is at its highest. Designed to guarantee maximum safety to the operator: big grinding wheel guard, on /off switch located in a safe area. In case of a power cut-off it is necessary to intentionally switch the machine on to keep grinding; power cable far from the working area.

Technical features:

Power: 85W
 Standard Wheel: 4,5 (chain ,404" - 3/8")
 Optional Wheel: 3,0 (chain 325" - 1/4")

In compliance with all the directives CE and Rohs

Art./Ref.	Tipo motore/ Engine type	RPM	Mole diametro esterno/ Grinding wheel ext. diam. mm	Mole diametro interno/ Grinding wheel inner diam. mm
13000	220V 50HZ	4800 RPM	105	22

AFFILATRICE ELETTRICA PER CATENE DI MOTOSEGHE "ZAK"

AFFÛTEUSE ELECTRIQUE POUR CHAÎNE DE TRONÇONNEUSE «ZAK»
 ELECTRIC GRINDER FOR SAW CHAIN "ZAK"
 ELEKTRISCHES SÄGEKETTENSCHÄRFGERÄT „ZAK“
 AFILADORA ELECTRICA PARA CADENA DE MOTOSIERRA "ZAK"

Caratteristiche tecniche:

Potenza: 85W
 Mola in dotazione: 4,5 (catena ,404" - 3/8")

Conforme a tutte le direttive CE e Rohs

Technical features:

Power: 85W

AFFILATRICE PER CATENE DI MOTOSEGHE "JACK"

AFFÛTEUSE POUR CHAÎNE DE TRONÇONNEUSE "JACK"

GRINDER FOR SAW CHAIN "JACK"

SÄGEKETTENSCHÄRFGERÄT "JACK"

AFILADORA PARA CADENA DE MOTOSIERRA "JACK"

**Note:**

- Possibilità di affilare correttamente sia i denti destri e sinistri mantenendo la stessa rotazione del motore (Sistema brevettato da AMA)
- Luce sul punto di lavoro
- Serraggio manuale delle ganasce grazie ad una comoda leva frontale
- Pre-assemblato, facilissimo il montaggio con una sola vite!!

In dotazione:

- 145x22x4,5
- 145x22x3
- chiave a brugola
- ravniva mole

Conforme a tutte le direttive CE e Rohs

Notes:

- Possibility to sharpen correctly the left teeth as the rights maintaining the same motor spin (System patented by AMA)
- Light on work point
- Manual serration of the jaws thanks to a comfortable frontal lever
- Pre-assembled, very easy the assembly with only a screw!!

Equipment:

- 145x22x4,5
- 145x22x3
- T wrench
- wheel dresser

In compliance with all the directives CE and Rohs

AFFILATRICE ELETTRICA PER CATENE DI MOTOSEGHE "MAXX"

AFFÛTEUSE ELECTRIQUE POUR CHAÎNE DE TRONÇONNEUSE «MAXX»

ELECTRIC GRINDER FOR SAW CHAIN "MAXX"

ELEKTRISCHES SÄGEKETTENSCHÄRFGERÄT „MAXX“

AFILADORA ELECTRICA PARA CADENA DE MOTOSIERRA "MAXX"

MAXX
THE PRO-GRINDER

Note: Serraggio automatico (sistema brevettato) della morsa all'abbassarsi del gruppo testa/motore/mola. Luce sul punto di affilatura. Possibilità di affilare correttamente e nello stesso modo sia i denti destri che quelli sinistri della catena. Grazie ad un semplice sistema (brevettato) entrambi vengono affilati con la mola che ruota dall'esterno verso l'interno, evitando così di lasciare bave o imperfezioni sull'angolo di taglio del dente. Massima sicurezza per l'operatore.

In dotazione:

- 3 mole di spessore diverso
- 1 ravnivamole
- 1 chiave a brugola

Optional:

- Corpo morsa per catene da 3/4" Art.13176Z

SPESSORE MOLE:

- 4,5 mm (catene 3/8" - .404")
- 3,0 mm (catene 1/4" - 3/8" hobby - .325")
- 6,0 mm (delimitatore)

Conforme a tutte le direttive CE e Rohs

Notes: The vise is automatically locked when you low the head/motor/wheel group to grind the chain (Patented system). Light on the working area. Built to perfectly grind both the right and the left teeth of the saw chain. Thanks to a patented, easy system, they are both grinded by the rotation of the wheel from the outside to the inside, without leaving any imperfection on the outer edges. Safe for the user.

Grinding wheel thickness:

- 4,5 mm (chains 3/8" - .404")
- 3,0 mm (chains 1/4" - 3/8" hobby - .325")
- 6,0 mm (depth gauge)

In compliance with all the directives CE and Rohs

MODULO TRANSISTORIZZATO D'ACCENSIONE "SIG-01"

CENTRALE D'ALLUMAGE "SIG-01"
IGNITION "SIG-01" UNIT
TRANSISTORISIERTER ZÜNDUNG "SIG-01" FORMULAR
MODULO PARA ARRANCAR "SIG-01"

Note: Sostituisce contatti e condensatori sulla maggior parte dei piccoli motori 2/4 tempi.

Non utilizzabile su motori con avviamento elettrico o con più polarità (preferibilmente non superiori ai 40 cc. di cilindrata).

Notes: It replaces contacts and condensator on most small 2/4 stroke engines. Do not use on engines with electric start or with more polarities (not more than 40 cc.)

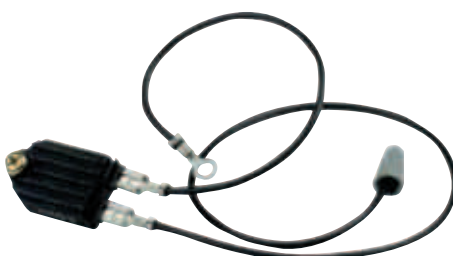

11005
MODULO TRANSISTORIZZATO D'ACCENSIONE "NOVA"

CENTRALE TRANSISTORISEE D'ALLUMAGE "NOVA"
IGNITION "NOVA" UNIT
TRANSISTORISIERTER ZÜNDUNG "NOVA" FORMULAR
MODULO TRANSISTORIZADO PARA ARRANCAR "NOVA"

Note: Sostituisce contatti e condensatori sulla maggior parte dei piccoli motori raffreddati ad aria (motoseghe, decespugliatori, rasaerba, motopompe ecc...).

Non utilizzabile su motori con avviamento elettrico o con più polarità (preferibilmente non superiori ai 40 cc. di cilindrata).

Notes: It replaces contacts and condensator on most small 2/4 stroke engines. Do not use on engines with electric start or with more polarities (not more than 40 cc.)
